About the job

Summary

We are looking to hire a Mobile Developer (Android) to join us in our mission to educate the world. The successful candidate shall be responsible for developing amazing Android applications and participating in the entire application lifecycle.

Responsibilities

- Be involved in all stages of application development, including design, modifications, development, and implementation of Android applications to maximize their quality and efficiency
- Ensure the best possible performance, quality, and responsiveness of the applications
- Help maintain code quality, organization, and automatization
- Document all codes of the development processes to record and facilitate the work of other mobile developers
- Keep up to date with the latest industry trends in changing technologies, new tools, computer languages, and new applications to develop internal workflow
- Work with creative designers and software developers to enhance, build, and test the applications, and to implement server APIs (Application Programming Interface) and services to support planned mobile functionality

Qualifications & Work Experience

- Bachelor's degree in any field, preferably computer science or engineering
- 1-3 years of relevant experience
- Good command of both written and spoken English
- Experience with Kotlin
- Proficient understanding of code versioning tools (such as GIT)
- Proficient understanding of clean architecture, VIPER, MVVM, and MVP
- Experience with Java development
- Experience with Android SDK, IDE Android Studio/IntelliJ, and debugging
- Experience with Android layout designing according to Material Design
- Experience with offline storage, threading, and performance tuning
- Experience with RESTful APIs to connect Android applications to back end services
- Experience with design patterns and object-oriented concepts
- Proficient understanding of RxJava and dependency injection with Dagger
- Proficient in deploying apps on Google Play Store

Behavioural Competencies

- Excellent communication skills
- Accuracy and attention to details
- Adaptability and flexibility
- Problem solving and decision making
- Analytical thinking
- Sense of initiative and entrepreneurship
- Creative and innovative thinking

Benefits

- Private medical insurance
- Flexible working hours
- Learning and educational leaves
- Transportation service
- Special benefits for new mums and dads (Leaves & Nursery subscription)
- Lunch break, food services and fun & games area
