About the job

The Advanced Technology Lab (ATL) in Cairo, Egypt, is looking for a highly motivated experienced Senior Software Development Engineer (Senior SDE) who will be part of a team that develops and releases intelligent services and applications in the domain of Language Understanding. The successful candidate will work in a start-up like environment with a team of outstanding Software Development Engineers that spans multiple geographical locations.

Responsibilities

- Strong analytical and programming skills
- Highly motivated to make an impact, be eager to learn and grow
- Ability to develop quick prototypes as well as integration of large complex systems and handling large volumes of data.
- Experience incubating innovative ideas and technologies, to grow expertise in breadth and depth, to interact with the top experts in the field, and to have cross-organization.
- Ability to mentor less senior software engineers

Qualifications

- Bachelor's degree in Computer Science or a related field required. An advanced degree in Computer Science or a related field would be a plus.
- 5 - 8 years post graduate software development experience using both native (e.g. C++) and managed (e.g. C#) programming.
- Proficiency with scripting languages.
- Experience with cloud computing environments, specifically Azure.
- Prior experience as a software development lead would be plus. For example, leading feature areas and large projects and mentoring and guiding teams of software engineers.
- Technical competence (algorithms, data structures) and strong analytical and programming skills.
- Passion for technology, creative thinking, ability to work independently or in a team.
- Ability to learn new technologies quickly, apply them in prototypes, and integrate them in large complex systems.
- Ability to work effectively in an agile, fast-paced applied research environment.
- Good communication skills and cross-organizational interactions.

Microsoft is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to age, ancestry, color, family or medical care leave, gender identity or expression, genetic information, marital status, medical condition, national origin, physical or mental disability, political affiliation, protected veteran status, race, religion, sex (including pregnancy), sexual orientation, or any other characteristic protected by applicable laws, regulations and ordinances.

Benefits/perks listed below may vary depending on the nature of your employment with Microsoft and the country where you work.

Every company has a mission. What's ours? To empower every person and every organization to achieve more. We believe technology can and should be a force for good and that meaningful innovation contributes to a brighter world in the future and today. Our culture doesn't just encourage curiosity; it embraces it. Each day we make progress together by showing up as our authentic selves. We show up with a learn-it-all mentality. We show up cheering on others, knowing their success doesn't diminish our own. We show up every day open to learning our own biases, changing our behavior, and inviting in differences. When we show up, we achieve more together. ...[show more](#)
